## EAST KOOTEN MUSICAL FESTIVAL NEXT WEEK

The fourth annual East Kootenay Musical Festival will be held at Cranbrook, commencing Wednesday next, April 25th. The following are to be among the local district competitors: Jenny Mark, Hillcrest, girl solo under 16; Georgette Daw, Poly Gusshul and Lorraine Piroit, Blairmore, piano solo under 12; Eleanor Aschauer, Blairmore, piano and Doris Hale, Blairmore, and Isabel Westrup, Hillcrest, piano solo open; Albert Christie, Bellevue, tenor solo; John Nansen and Frank McLaugherty, Belle Vue, and Billy Royle, Blairmore, violin solo under 11; Beth Moore, Coleman, violin solo under 17; Blairmore Male Voice Choir; Coleman, Hillcrest and Blairmore String Quartettes; Lawrence Fisher, Hillcrest, and Parissa Gusshul, Blairmore, violin solo under 14; Roy Upton, Evan Gusshul and George Kerr, (Blairmore) Jean Cruckshank and Catherine Rose (Hillcrest), Dennis McLaugherty (Bellevue), and John Pietroszka (Coleman), violin solo grade A; open; Hillcrest High School Orchestra; Catherine Rose and Jean Cruckshank (Hillcrest), Dennis McLaugherty and Albert Christie (Bellevue), Roy Upton and Jean Upton (Blairmore), and Helen Rose and Isabel Westrup (Hillcrest), sonata for violin and piano; Jean Cruckshank for stringed instrumental champion; Hillcrest String Orchestra.

Mr. Arthur Collingwood, F.R.C.O., L.T.C.L., music professor, of the University of Saskatchewan, and Mrs. Barbara West, of London, England, will act as adjudicators in vocal and instrumental and elocution respectively.

We understand that plans are being made for a large number of music lovers from this district to accompany the competitors to Cranbrook for the week end.

A tea and sale of home cooking etc., will be held by the Junior C.W.L. in the Columbus hall on Wednesday afternoon next.

## CARMINE BIAFORE PASSES

The remains of Carmine Biafore, who died suddenly at the Holy Cross hospital, Calgary, last week, were brought to Blairmore Sunday night, and interment took place Tuesday morning in the Catholic cemetery, following service held at St. Anne's church. Mr. Biafore had been a resident of Blairmore for a number of years and is survived by his wife and five children; the fifth born shortly after the father's death.

Floral tributes included the following: The Family (2), Hillcrest Italian Society, Grand Cebala Lodge, Calgary; Mr. and Mrs. H. Pinkney, V. Misuraca and family, and Mr. and Mrs. Luchenti and family, D. Currie, and S. Imbruglia, Mr. and Mrs. W. Knight, Mr. and Mrs. F. M. Thompson, Mr. and Mrs. Galloitti, and Mrs. N. Nicor, Mr. and Mrs. C. Parsons, Mr. and Mrs. Tony Stella, and Mrs. M. Mark Sartoris, Mr. and Mrs. L. W. Evans, Mr. and Mrs. Joe DeCecco and Cerni, Coleman; Compare o'Commare, Mr. and Mrs. Frank Celli, Creston, B.C. Among the many friends from outside points to attend the funeral were Mr. and Mrs. J. Nastasi and Mr. and Mrs. Frank Celli, of Creston.

The death of Mr. Biafore removes one of the most highly respected citizens of the town.

## JOSEPH ANDERSON KIDD

Death claimed another of Blairmore's pioneers in the person of Joseph Anderson Kidd, who passed away at the local hospital on Tuesday night, following a long illness. Mr. Kidd was thirty-nine years of age and is survived by three sisters, Mrs. H. Moore, Mrs. R. Perry and Miss Emma Kidd. His parents predeceased him many years ago.

Funeral takes place this afternoon from the Crows' Nest Undertaking Parlour, service to be held in the United Church. The remains will be laid to rest in the union cemetery, beside those of his brother Parker, who died many years ago.

Mr. Kidd was a veteran of the Great War.

## BLAIRMORE PLAYERS TO STAGE THREE-ACT COMEDY

A three-act farce comedy is to be staged at the local Columbus hall on the night of May 7th and 8th by the Blairmore Players. The title of the play is "His Lordship's Dilemma" under direction of Mrs. J. A. Packer. Characters will include H. Pinkney as Lord Richard Sandridge, Louis Porzi as Captain Tubby Banister, Norman Packer as Arthur Thompson (Lord Richard's secretary), Donald McPherson as Carter (Lord Richard's manservant), N. Packer as Detective-Inspector Brown from Scotland Yard, Mrs. Frank Lyons as Evelyn Lovejoy, Miss Lillian Knapman as Lady Violet Elliot, Miss Alice Hornquist as Sylvia Gayford (a widow); Mrs. D. McPherson as Mrs. F. Lyons, Miss Isabel Rae and Miss Lillian Packer as Coole, Rose, Bryan and Gladys, Mrs. J. Gayford's servants; J. V. McDougall, stage manager, Upton's orchestra will be in attendance. The proceeds are to be handed over to the central hospital committee or the library. Seebliss for further particulars.

## DEATH OF MRS. W. L. HAMILTON

Word was received in The Pass yesterday of the death at Winnipeg, early Tuesday, of Mrs. Hamilton, relict of the late W. L. Hamilton, of Estevan, Sask. The remains will be laid to rest at Estevan tomorrow, Friday.

Mrs. Hamilton is survived by several daughters, most of whom are married. She with her husband and family, at one time resided at Passburg, occupying the large residence still standing at Police Flats.

## JOHN COUGHLAN

Hastings, Ontario, April 3.—The funeral of the late John Coughlan, pioneer resident of Hastings, was held on Friday afternoon from the family residence, to Our Lady of Mount Carmel Roman Catholic Church, following service held at St. Anne's, where the solemn service of the Catholic church was conducted by Rev. Father P. J. Kelly. The funeral was one of the largest in the history of the local church, many were forced to stand throughout the services.

Ever since Wednesday morning hundreds of sorrowing friends from far and near, many being obliged to drive over roads that were almost impassable, called at the family home to pay solemn tribute to a man who was loved by one and all. No greater tribute to a man who had passed on to his reward was ever shown than that which was shown on Friday afternoon by the huge number present at the funeral of Hastings' grand old veteran.

Born in Hastings on December 28th, 1850, Mr. Coughlan was a son of the late Mr. and Mrs. Timothy Coughlan, one of the first white families to settle in Hastings, in which was known as Crook's Rapids in their time. Mr. Coughlan's birth on December 28th, 1850, was the signal of joy among the white families as he was the first white male child born in the village. His early education was received in Hastings public school and Regispolis College, Kingston. It was when he was about to return to the latter college that the late Mr. Coughlan decided he would prefer farming to a college education, as his parents had planned for him. From his first start until a number of years ago, when he retired, Mr. Coughlan carried on farming very successfully on the place where he died occurred.

From the time he reached manhood until his health commenced to fail he took an active interest in the welfare of the village, being a member of the village council and Reeve when Hastings was as large again as it is today. When a separate school was talked of for Hastings he was tireless in his efforts to see that it was carried through, and for over twenty years he was secretary-treasurer of the school board. He received the appointment of assessor for the village for a number of years and it was rare indeed if an appeal was entered against an assessment set by John Coughlan. Until recent years he could give the number of any lots in the village without consulting a plan, he had made such a thorough study of Hastings. Being in the dairy farming, it was natural that Mr. Coughlan would take an interest in the cheese factory which he did, being president of the Ormonde factory for a number of years, and also salesman on the Peterborough Cheese Board, where he was always very successful.

In 1875 Mr. Coughlan married Miss M. Doherty who predeceased him thirteen years ago.

There are left to mourn his loss two sons and five daughters—T. A. Coughlan, of Hastings, and John Coughlan, of Calgary; Sister M. Carmela, of Brighton, Mass.; Mother St. George, of Quebec City; Mrs. S. J. Lamey, Bellevue, Alta.; Mrs. C. J. Black, of Campbellford; Miss Gertrude at home.

The bearers were Messrs. T. Lynch, F. Walsh, W. J. Armstrong, D. Armstrong, C. R. Fowlds, J. Gibson. Interment was made in Hastings R.C. cemetery—Peterborough Examiner.

Rev. A. D. Currie, formerly of St. Alban's Anglican church, Coleman, assisted Rev. Dr. George Dickson at the George Collicut funeral services at Knox United church, Calgary, on Monday afternoon. George Collicut, aged 31, met death through the accidental discharge of a gun on the farm near Crossfield.

## CENTRAL MEAT MARKET MOVES

The Central Meat Market, V. Krivsky, proprietor, moved yesterday to their new premises, the former Burns' building, where they are now opened up to the trade in meats and groceries in one of the most attractive and best equipped shops in The Pass.

Mr. Krivsky started in in Blairmore several years ago as a sausage maker. His sausages have met the tastes of the "average" public favorably. He, a couple of years ago, decided to move over from Dearborn Street to Victoria Street, where he has since been favored with a goodly share of business.

In his new establishment, we beseech Mr. Krivsky and the Central Meat Market and Grocery an exceptionally good trade.

## COLEMAN ORGANIZES

The Coleman Canadians hockey club were recently feted, when the team and twenty of their supporters sat down to heavily laden tables at the Grand Union hotel. Following a sumptuous banquet, plans were discussed for a bigger and better season next winter, with the past season's officers re-elected as follows: O. E. S. Whiteside and G. Kellock, hon. presidents; F. Creagan, president; Dr. McLean, vice-president; Robert Pattinson, secretary-treasurer; J. Kwasnje, coach; J. A. McLeod, C. J. Devine, R. F. Barnes and Rev. Roy Taylor, executive.

A public presentation of beautifully engraved watches, gifts of the citizens of Coleman, and the Wright trophy, emblematic of the intermediate championship of Alberta, was made last night.

Messrs. G. Scott and J. Beattie attended the meeting of the Crows' Nest Football League on Sunday. It was decided to admit Kimberley to this league, so the fans here will be assured of a number of good games.

The following teams comprise the league: Bellevue, Hillcrest, Blairmore, Coleman, Corbin, Michel, Fernie, Coal Creek and Kimberley—Kimberley Courier.

## LIVESTOCK MEN ASK FOR MASS BUYING PROBE

Ottawa.—Appointment of a commission to inquire into all phases of livestock marketing in Canada was proposed to the parliamentary price spreads and mass buying probe by the Saskatchewan livestock board.

The board's communication proposed the commission would be an enlargement of phases of livestock marketing brought out at the present inquiry. Sittings would be held, it was suggested, in important livestock centres.

The Winnipeg Livestock exchange, on behalf of eight commission houses, protested against the decrease in commission rates to come into effect this week. The reductions were ordered by the department of agriculture.

Charging the Ontario government, "under pressure of somebody," had failed to enforce an act on the statutes, Mr. Chapman, of Toronto, testified before the committee.

The law he referred to was one which provided truckers must obtain bill of lading covering consignments to commission men at the stockyards. Under the bills of lading, money due farmers for cattle sold at the yards would be sent direct to the farmer, and Mr. Chapman said there were many cases where the producers were victimized by truckers.

"That's a serious allegation," said Sam Factor (Lib., Toronto West Centre). "Do you mean by the pressure of someone the law is not being enforced?"

"Yes."

Hon. H. H. Stevens, chairman of the committee, called for a copy of the Ontario statutes, and later stated the bill referred to had some connection with department of highway regulations which had not been completed. There would be further investigation of the matter, he said.

During the meeting, Mr. Stevens also indicated, in reply to a question from Mr. Factor, the marketing bill now before the house might be held up until the mass buying committee had concluded its labors and brought down its findings. An executive session of the committee is to be held for further consideration of the matter.

## Declare Cost Too High

### Protest Made Over Government Expenses in Yukon

Ottawa.—The cost of government in the Yukon was too expensive for its population and the revenue derived, Pierre F. Saguenay (Lib., Charlevoix-Saguenay) protested in the House of Commons.

Items appeared in the main estimates amounting to \$28,500, the Liberal member stated. In 1930, \$20,000 was spent out of the Dominion treasury for direct relief in the Yukon which had a population of 1,800 to 2,000. "The expenditures made there for direct relief should be carefully scrutinized," the chief Liberal whip continued. The amount of \$20,000 was quite large.

## Will Ship Via Churchill

### Plan For Saskatchewan Wheat If Rates Are Favorable

Prince Albert, Sask.—One-quarter of the wheat in storage in country elevators between the head of the lakes and Vancouver is in elevators in this division of the Canadian National Railways, Superintendent J. H. McKinnon declared. There are 10,000,000 bushels stored in elevators of this division of the total of 40,000,000 for the west. The Saskatchewan Wheat Pool is holding wheat in its elevators for shipment via Churchill this year if rates make this profitable.

### Trip For Boy Scout

Winnipeg.—Adjudged the most competent Boy Scout in Manitoba, Cockburn McCallum, King's Scout of the 44th Winnipeg troop, was awarded the Hudson's Bay Company's travelling scholarship for 1934, and will travel into Arctic seas this summer aboard the supply ship *Nascopie*, as "handyman," it was announced.

### Completes Chain Of Support

Quebec.—Quebec joined the parade of Canadian provinces which have taken steps or indicated they would take steps to support the natural products marketing bill of the Dominion government. Quebec stepped in line and completed the chain of support from coast to coast.

W. N. U. 2042

## Hardships Of Byrd Party

### Steigh Dogs Die In Harness From Intense Cold

Little America, Antarctica.—How they conquered intense storms and temperatures 61 degrees below zero in "building" a road 100 miles to the south was told by the main southern party of the second Byrd Antarctic expedition.

Capt. Alan Innis Taylor, formerly of the Royal Canadian Mounted Police and the Royal Flying Corps, was in command of the party.

They spent a month behind the nine-dog teams on the rolling ice barrier, marking a trail with orange dyes and putting down food depots for the next spring a trek can be made to start in that direction until after the next election.

Interrupting a leisurely debate on the government unemployment relief bill, Hon. W. D. Euler, former Liberal minister of national revenue, threw out a suggestion for a commission to study co-operation of social legislation under a central authority. He proposed unemployment insurance, old age pensions, health insurance, workers' compensation, widows' allowances and poor relief under Dominion administration.

"We had one terrible day," the Canadian recounted.

"We broke camp early with the hope of making 75 miles by night. The temperature was 43 below. A 31-mile wind made it cruel. The snow was like sand—it was tough going."

"Ronnie froze from his wrist harnessing the dogs, and later both cheeks; Paine suffered a frost-bitten cheek. My finger froze. But it was tougher on the dogs."

"The wind picked up drift from the surface, and the dogs got the full slush of it. They shut their eyes and kept crawling, sometimes belly-deep in the loose snow. First a cog of Ronnie's team died in harness. Then one of my team foundered, and the merciful thing was to shoot him."

"The nights were like long nightmares. Many times my sleeping bag had 20 pounds of ice on it. On the 28th we lost another dog."

"Nelge, a big dog in my team, came in and I carried him on the sledge for a while, but just before we reached 50-mile depot he died."

The men told also of a snow storm on March 16 when "the air shook with a sound like the roar of 1,000 locomotives, and for miles the earth trembled and settled three or four inches."

## Rescued From Ice Pack

### Work Of Russian Aviators Meets With Success

Nome, Alaska.—Rescued after nearly two months spent on the Arctic pack when the vessel *Cheluskin* sank off northern Siberia, Prof. Otto Schmidt, leader of the large party of Russians aboard the ship, arrived here by plane from Cape Van Karem, Siberia.

The gallant leader of the expedition, which numbered more than a hundred, but of which only 28 now remain on the ice through rescue work by Russian aviators, was very weak.

He had been suffering from bronchial trouble in recent weeks but was taken aboard the last plane to leave the ice camp. Pilot M. T. Sletten, who flew the rescue mission, said, "He is only despite his strenuous protests."

Pilot Sletten was accompanied on the flight from Cape Van Karem, to which 62 of the party had been flown from the ice camp the past few days, by Prof. George Ushakov, leader of the rescue expedition, Clyde Arnestad and Bill Lavery, both mechanics of Fairbanks.

The Americans commented when the plane arrived that Prof. Schmidt had "lots of courage." The 375-mile flight from Cape Van Karem was made in two hours and 10 minutes.

Assisted to an automobile, Prof. Schmidt was rushed to a hotel by a Nome physician to give him medical attention.

The 62 landed safely on the mainland of Russia and the 28 remaining on the ice were members of an expedition to Wrangel Island which Schmidt headed. En route home from the island, the ship of the party, the *Cheluskin*, was crushed by the ice and sank, February 13.

### Honor Veterans Secretary

Edmonton.—Professor George E. Day of Guelph, veteran secretary of the Canadian Shorthorn Association, was tendered a complimentary dinner by the Northern Alberta Short-horn Club. An engraved walking stick was presented. J. O. Harvey of Milet, was re-elected president, and W. Lyle Robinson, Vermilion, vice-president.

### Investigate Radio Salaries

Ottawa.—Information respecting the salaries paid members and staff of the Canadian Radio Broadcasting Commission, and other details of the financial operations of that body, will be furnished the House of Commons committee on radio but, pending a later decision by the committee, the facts will not be made public.

## BENNETT FAVORS EARLY REVISION OF B.N.A. ACT

Ottawa.—Premier R. B. Bennett favors early revision of the British North America Act, Canada's written constitution, to permit the Dominion to take wider control of social legislation, he told the House of Commons. But he intimated he did not intend to make a start in that direction until after the next election.

Interrupting a leisurely debate on the government unemployment relief bill, Hon. W. D. Euler, former Liberal minister of national revenue, threw out a suggestion for a commission to study co-operation of social legislation under a central authority. He proposed unemployment insurance, old age pensions, health insurance, workers' compensation, widows' allowances and poor relief under Dominion administration.

"We had one terrible day," the Canadian recounted.

"We broke camp early with the hope of making 75 miles by night. The temperature was 43 below. A 31-mile wind made it cruel. The snow was like sand—it was tough going."

"Ronnie froze from his wrist harnessing the dogs, and later both cheeks; Paine suffered a frost-bitten cheek. My finger froze. But it was tougher on the dogs."

"The wind picked up drift from the surface, and the dogs got the full slush of it. They shut their eyes and kept crawling, sometimes belly-deep in the loose snow. First a cog of Ronnie's team died in harness. Then one of my team foundered, and the merciful thing was to shoot him."

"The nights were like long nightmares. Many times my sleeping bag had 20 pounds of ice on it. On the 28th we lost another dog."

"Nelge, a big dog in my team, came in and I carried him on the sledge for a while, but just before we reached 50-mile depot he died."

The men told also of a snow storm on March 16 when "the air shook with a sound like the roar of 1,000 locomotives, and for miles the earth trembled and settled three or four inches."

A commission to study co-operation of social legislation was unnecessary, the prime minister said. Their newspapers and sat upright in their seats, "that unless there is a rearrangement of the powers of parliament and the legislatures of the provinces, in the very nature of things, the problem cannot be dealt with."

A commission to study co-operation of social legislation was unnecessary, the prime minister said. Their newspapers and sat upright in their seats, "that unless there is a rearrangement of the powers of parliament and the legislatures of the provinces, in the very nature of things, the problem cannot be dealt with."

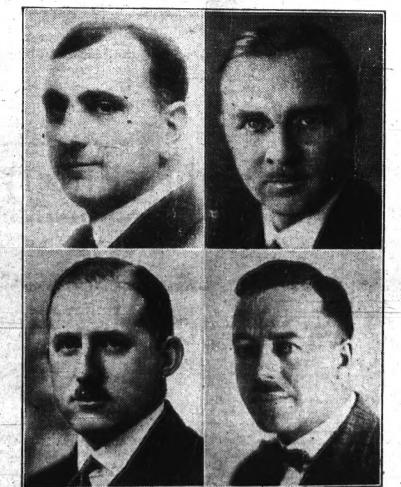

"All I can usefully say at this time is that I hold a very strong opinion as to the necessity of an early revision of the provisions of the B.N.A. Act. I need not go further to point out to you that we realize the difficulty and any steps we may take toward the solution of the difficulty will be taken in such a way as not to strain the existing mechanism."

"But we have not yet approached the problem by amending the B.N.A. Act," he said. "That is in the offing and I suppose that in the course of human events and when an indulgent and grateful electorate have honored us with their support, we may be able to make such changes as may be necessary."

### Traffic Accidents In Britain

London.—Ninety youths were killed and 4,038 injured in traffic accidents in Britain during the first week of April, according to an official statement made public here.

### RETIREMENT OF CANADA'S SENIOR TRADE COMMISSIONER BRINGS SHAKEUP

With the recent retirement of Harrison Wilson as chief Canadian Trade Commissioner in the United Kingdom, four well known Canadians have been given more important posts in Canada's foreign trade service. Frederick Hudd, trade commissioner in London, has been made chief trade commissioner in Norway. F. H. Palmer (bottom left), Canadian Trade Commissioner at Oslo, Norway, is transferred to Bristol, England. A. S. Blundell (bottom right) goes from Rio de Janeiro, Brazil, to Oslo. All three Trade Commissioners have been abroad for periods ranging from seven to ten years, and have done much to develop Canada's rapidly growing export trade.

### DEFENDS RELIEF ACCOUNTS

## Sweepstakes Bill

### Receives Third Reading In The Senate

Ottawa.—Bitterly opposed to the last by an opposition which included the leaders of the two parties, Rt. Hon. Arthur Meighen, government, and Hon. Raoul Dandurand, Liberal, the hospital sweepstakes bill received third reading in the senate. It passed by a vote of 37 to 20.

The bill now goes to the House of Commons, where it will stand on its merits and pass or fail on a non-partisan vote.

The senate also rejected a move on the part of Hon. J. H. Rainville, of Montreal, to authorize the use of the proceeds of sweepstakes for "educational or charitable purposes," instead of restricting it to hospitals.

## STEVENS PROBE IS TAKING IN A WIDE FIELD

Ottawa.—The Stevens committee of the House of Commons has investigators working on department stores, furniture industry, clothing industry, chain stores and the milling and baking industry, it was announced.

At present, the investigation is limited to New Brunswick, Premier L. P. Tilley (above) stated. "With the investigations are completed, I believe it will be found that relief disbursements in New Brunswick were carried out as regularly and as efficiently as in any province in Canada."

### Urge Publicly-Owned Bank

#### Resolution Adopted In Alberta To Be Forwarded To Ottawa

Edmonton.—Adopting a resolution moved by W. R. Howson, Alberta Liberal leader, the legislature declared that the central federal bank, or bank of Canada, should be a publicly-owned and operated institution. The resolution will be forwarded to the Dominion government.

Premier Brownlee, speaking briefly during the debate, asked why a few people in Canada should be permitted to own shares in what probably would be the most important and safest financial institution in the country. They were to have a six per cent, guaranteed dividend and he could not see the logic of it, he said.

A special freight rate for at least four years on coarse grains shipped from Alberta points to eastern Canada is to be urged by the legislature. A resolution to that effect was adopted.

### Hutterites For Alberta

#### Colony From South Dakota To Settle Near Lethbridge

North Portal, Sask.—Recollections of 1909-1910 were recalled at the border when a train of 10 cars of stock and settlers' effects, belonging to the Hutterite colony from Alexandria, S.D., cleared customs en route to Welling, near Lethbridge, Alta., where 5,000 acres of land have been purchased. Representing an investment of \$175,000, their holdings in South Dakota were disposed of at about the same price per acre as the purchase price in Alberta.

Mixed farming, including corn and sugar beet raising, will be followed in their new location, where horse power largely will be used, only two tractors being brought in.

### Bill Has Second Reading

#### Measure Designed To Cut Toll Of Road Fatalities

Lethbridge, Alta.—An enthusiastic and hospitable welcome was extended to the Governor-General and Lady Bessborough, who were homeward bound after an unofficial tour that took them as far as the Pacific coast.

After an official reception at which Mayor J. R. Barlow read a civic message, Their Excellencies were given an ovation by scores of school children when the governor-general asked that a holiday be given them.

His Excellency addressed returned soldiers at night. He said he hoped to be able to be present next year for the golden jubilee of the city of Lethbridge.

### Bill Has Second Reading

#### Measure Designed To Cut Toll Of Road Fatalities

London.—Staunton Cairine Wilson of Ottawa, wearing a scarlet hat, was an interested listener in the Dominions' gallery of the House of Commons while the government moved second reading of its transport bill, a measure designed to cut the increasing toll of road fatalities, over which the country has become much exercised.

The bill sets a speed limit of 30 miles an hour in urban areas with lower limits for heavy commercial vehicles, which are also required to carry distinguishing lights.

### Work On Roads

Fort William, Ont.—Possibility of 25,000 or more men will be working on roads in the Thunder Bay district within a short time, predicted by Frank Spence (M.L.A., Fort William), here on his return from Toronto after protracted negotiations with the provincial legislature. Spence said he was fairly certain a provincial election would be held sometime in June.

### Working In Peace Garden

Brandon, Man.—Plans for 280 members of the United States civilian conservation corps to work in the international peace garden this summer were announced by A. G. Buckingham, K.C., member of the executive of the peace garden movement. Mr. Buckingham said the corps would go into camp at Dunsmuir, N.D., April 22 and remain at work in the garden until September 15.

## TRY TO HOLD BRITISH MARKET FOR PRODUCTS

London.—Negotiations shortly between British and Australian governments regarding expiring portions of the trade agreement signed at Ottawa may conceivably have an important bearing on future discussions with other Dominions.

Stanley Bruce, Australian high commissioner, it was thought, would likely play an important role in coming discussion in laying the foundation for wider negotiations necessary.

The Ottawa agreements generally, as far as Canada are for a period of five years, expiring in 1937, not so far as meat is concerned the agreement with Australia expires at the end of next June, while the dairy products agreement runs out next year.

Meanwhile differences of opinion between Hon. Walter E. Elliot, minister of agriculture, and Walter Runciman, president of the Board of Trade, are said to be growing. The former holds the United Kingdom should produce the largest possible quantity of food products required by the country. The latter holds further agreements should be concluded for exchange of manufactures for agricultural products from Dominions.

Mr. Bruce is at present in Australia, conferring with government heads. He intends on his return to England to open new negotiations equal in importance to those of the imperial conference, maintaining a conciliatory point of view as regards the difference between Runciman and Elliot.

It is thought very likely the Canadian government will rally to Bruce's project which is on the one hand to demonstrate to Runciman that the Ottawa pacts have stimulated exportation of British goods to Dominions, and to induce Elliot, on the other, to cut down on importation of foreign food products without affecting importation from Dominions.

### Lethbridge Has Visit From Governor-General

#### Lord And Lady Bessborough Given Enthusiastic Welcome

Lethbridge, Alta.—An enthusiastic and hospitable welcome was extended to the Governor-General and Lady Bessborough, who were homeward bound after an unofficial tour that took them as far as the Pacific coast.

After an official reception at which Mayor J. R. Barlow read a civic message, Their Excellencies were given an ovation by scores of school children when the governor-general asked that a holiday be given them. His Excellency addressed returned soldiers at night. He said he hoped to be able to be present next year for the golden jubilee of the city of Lethbridge.

### Bill Has Second Reading

#### Measure Designed To Cut Toll Of Road Fatalities

London.—Staunton Cairine Wilson of Ottawa, wearing a scarlet hat, was an interested listener in the Dominions' gallery of the House of Commons while the government moved second reading of its transport bill, a measure designed to cut the increasing toll of road fatalities, over which the country has become much exercised.

The bill sets a speed limit of 30 miles an hour in urban areas with lower limits for heavy commercial vehicles, which are also required to carry distinguishing lights.

### Work On Roads

Fort William, Ont.—Possibility of 25,000 or more men will be working on roads in the Thunder Bay district within a short time, predicted by Frank Spence (M.L.A., Fort William), here on his return from Toronto after protracted negotiations with the provincial legislature. Spence said he was fairly certain a provincial election would be held sometime in June.

### Working In Peace Garden

Brandon, Man.—Plans for 280 members of the United States civilian conservation corps to work in the international peace garden this summer were announced by A. G. Buckingham, K.C., member of the executive of the peace garden movement. Mr. Buckingham said the corps would go into camp at Dunsmuir, N.D., April 22 and remain at work in the garden until September 15.

# If ? Everybody Did It !

Think for a moment what would happen if, even for one week, everybody in town were to shop elsewhere—either in a neighboring town or by mail! Would it not cause consternation, and would not all business houses be very much concerned? They certainly would, and with good reason.

## ¶ Some Do This Regularly

—And what is the result? Every dollar sent to distant business houses is gone for good so far as that particular district is concerned, and merely serves to build up and maintain some distant town. The local business men are robbed of that circulation of money which during its rambling might help dozens along the way.

## ¶ How About PRINTING?

All business houses need more or less printed matter, all of which is within the possibilities of the local printer. Yet how prone many are to pass up the home printer and let orders go to city offices which have no interest whatever in rural communities except to get printing orders and the cash to pay for them. Business men, remember that the home paper is constantly promoting the interests of the home community and you owe it to yourself and your local paper to back up these efforts by at least having your printed matter done locally.

## SOAP-BOX ORATORY

With all the steam roller tactics that can be thrown into action, Liberal members of the House of Assembly are turning the present session of the Legislature into a mock forum, asserts the Halifax Citizen. Different from the days when Premier Rhodes held sway, when new members were treated with respect and courtesy, Premier Macdonald and his phalanx of barnstorming serenaders act as though conducting street-corner meetings on a Saturday night. —New Glasgow Free Lance.

The Alberta legislature has at last decided that all persons receiving teachers' certificates must be British subjects. The new law is effective after June 15th, 1935. If similar action were taken in connection with qualification for voting, all would be well.

PUBLICATION OF DIVORCE  
CASE EVIDENCE TO BE CURBED

EDMONTON, April 16.—Copies of the two "mystery" bills which have not yet been distributed in the legislative assembly, but which are subjects of much speculation among opposition members, were unearthed and indicate that drastic steps may be taken by the government to curb publication of reports in divorce and similar action in courts. Amendments to the judicature act, first reading of which was given by Premier Brownlee during the week, provide briefly that the attorney-general has power to bring action to restrain the publication of any newspaper, pamphlet, magazine, periodical or other forms of printed matter which "continuously or repeatedly" publishes writings or articles "which are obscene or immoral, or are of such a nature as are calculated to injure public interest."

Amendments to the libel and slander act, designated as bill number 80, and also given first reading by Mr. Brownlee before copies of the measure were available to members would even regulate headlines and captions in newspapers and other publications. It stipulates, among other things, that in any action hereafter brought, a report published in any newspaper of proceedings publicly heard before any court shall be privileged if (a) the report is a fair and accurate report of the proceedings; (b) the report contains no comment; (c) the report is published in the next issue of the newspaper published after the day upon which the proceedings which are the subject matter of the report were heard, or within ten days thereafter, whichever period is the shorter; (d) the report contains nothing of a blasphemous or indecent nature, and (e) the report is published without express malice.

The amendments further provide that:

"For the purposes of this act, every heading or caption in a news paper which is referable to any report therein shall be deemed to be a report," and the expression "proceedings publicly heard in or before any court," shall be deemed not to include any proceedings in a civil action heard in chambers, or any proceedings heard otherwise than before a judge sitting in open court.

STAMP WILL RECALL  
LANDING OF CARTIER

The 400th anniversary of the landing of Jacques Cartier, French explorer, on Canadian soil, will shortly be commemorated by a three-cent double-zoo Canadian stamp. The stamp will show a scene on board Cartier's ship as it approached land, and the legend beneath it will read, "1534 Jacques Cartier 1934." Date of issue has not yet been announced.

OVER 3,000,000 TOURIST CARS

A total of 3,096,887 tourist automobiles from the United States entered Canada in 1933, of which 2,233,418 came in for a period of 24 hours or less; 563,156 on 60-day permits, and 333 on permits good for six months. Of the total 2,358,097 came to Ontario; 436,383 to Quebec; 152,503 to New Brunswick; 102,863 to British Columbia; 31,700 to Manitoba; 17,701 to Saskatchewan; 15,866 to Alberta; 6,209 to Nova Scotia; and one to Prince Edward Island.

Fish possess some kind of hearing apparatus, but it is very poor at best, it has been found in investigations by scientists. Direct tests of the hearing of fish are difficult, because sounds made in the air are scarcely transmitted to the water at all. If a diaphragm is placed between the air and the water and made to vibrate, or a bell is struck under water, the fish will respond. Dr. Harry Bateman, of the California Institute of Technology says, "Shout all you want while fishing; the fish won't hear you. But don't stamp around on the bottom of the boat; that will surely frighten them away."

District News  
From Our Own Correspondents

## HILLCREST HAPPENINGS

The annual meeting of the Hillcrest football club was held at the Union hall on Tuesday evening, at which John McDade presided. The following officers were elected: John Douglas, president; John McDade, secretary; Richard Gardner, manager; William Thomas and John Semple, business committee; Harry Instone and William Fisher, trainers. Mr. and Mrs. James Gorton, junior, accompanied by James Gorton, senior, were Lethbridge visitors on Monday.

G. E. Cruickshank, M.L.A., returned home from Edmonton on Tuesday, after attending the session of the legislature.

A well attended meeting of the Crows' Nest Pass Boy Scouts' Association was held in the community hall on Tuesday night. The following officers were elected for the ensuing year: C. J. Tompkins, Blairmore, president; W. W. Wain, vice-president; Joseph Norton, secretary-treasurer; and Rev. A. S. Partington, of Coleman, to act as commissioner in the absence of Mr. J. W. Gresham.

The tour visited Hillcrest on Thursday, leaving a son with Mr. and Mrs. L. Louis.

Mrs. D. Grant entertained a number of friends at bridge on Monday evening.

A very enjoyable concert was held in Cole's theatre on Wednesday evening of last week, arranged by Mr. W. H. Moser and Mr. H. Stobbs, and under auspices of the Ladies Aid. The programme commenced with a short address by Rev. Mr. Wood, and continued with the following: two selections by the Moser orchestra, "Largo" and "Russian Romance," which were followed by a piano solo by Miss Jean Cruickshank. Selections by the string quartette, Mizies, Catherine and Helen Rose, Miss Jean Cruickshank and W. H. Moser, were heartily enjoyed. An action song directed by Miss A. Martin and accompanied by Miss Jean Cruickshank proved a delightful number with artistic beauty of the dresses. The magical feat, "Made-molle" from "Armentières," by Harry Harrison, was received with applause and the vocal solo by William Cole, the young tenor from Bellevue, brought much applause. A dance, "Mickey Mouse," by Miss Mary Fumagalli and Miss Grace Lote, accompanied by Miss Jean Cruickshank, proved a real novelty. A violin solo by Roy Upton, popular violinist, received an ovation, followed by soprano solo by Miss A. Martin with marked tenderness and later catching the mirthful force. The rendering of two festival numbers with dramatic force and sweeping tempo by Thomas Beynon, accomplished pianist, who has won many laurels, received rousing applause. Mr. Harrison's big mystery number, "Mystery of the Girl in the Trunk," assisted by Miss D. Costick and Miss Y. Harrison, proved highly entertaining. The closing numbers, "Music of the Spheres" and "The Mill," by the orchestra of 20 or more skilled musicians brought the programme to a close.

In the final international hockey contest between Moncton and the Detroit White Stars, the Canadians rolled up a score of 13-3 and carried off the North American title.

At the provincial conference of the I.O.D.E. held in Edmonton, Mrs. R. C. Marshall, of Edmonton, was re-elected president for the tenth consecutive term. Other officers are: Mrs. C. Gibson, Lethbridge, third vice-president; Mrs. Allison Smith, Medicine Hat, fourth vice-president; Mrs. A. B. Stafford, Lethbridge, standard bearer; Mrs. Jack Patter, Blairmore, and Mrs. C. Wright, Medicine Hat, councillors.

## BELLEVUE HAPPENINGS

The victim of the auto accident, who spent several days in the hospital here, has returned to the relief camp.

Mrs. J. Hill left for Medicine Hat to meet her mother, Mrs. G. W. Goodwin, who was returning from a months vacation at her home in Yorkshire, England. Mrs. Goodwin landed at St. John, N.B., on Friday.

Mr. and Mrs. Gordon Key are rejoicing over the advent of a baby daughter.

Gordon McIntyre left Monday for Roxy Mountain House, where he will be assistant agent at the C.P.R. station.

Luther Goodwin is from Fish Lake district for a few days.

Dr. J. A. Key, of Nordegg, is a visitor here with his son Gordon. "Doc" is looking fine, and his many friends are glad to meet him.

Bellevue split a double-header basketball tournament here on Friday with the Michel teams. The boys won their game, while the girls lost. A return tournament will be played at Michel shortly.

The whilst drive and dance held by the Rebekahs on Friday was poorly attended only eight tables being at play. Prizes were awarded as follows: Mrs. Hughes, ladies' first; Mrs. C. Johnson, second; Mrs. R. Shewell, gents' first; Watts Goodwin, second. Music for the dance was furnished by the Band-Its.

The first football game of the season was played Monday evening between Bellevue and the relief camp team, the score being 6-0 in favour of Bellevue. A large number of fans witnessed the game.

Joe Labourier is busy this week placing a new roof on the home of Watts Goodwin.

## SLEEP ALSO IMPORTANT

Some of the young bloods who have spent years in exercising in high-priced gymnasiums, watching their vitamins, getting plenty of sun at the beach in summer, etc., need to be informed that sleep also is an important element in anybody's health programme—in other words, that it would be distinctly to the advantage of their physical and mental equipment to start their fun in time to get to bed before 2 a.m.

## REPORTS CONTAINED IN THE DAILY PRESS ON TUESDAY INTIMATED THAT FRESH CHARGES MAY BE LAID AGAINST A BLAIRMORE CITIZEN IN THE SO-CALLED "BATTLING" TO KEEP NON-PAYING CUSTOMERS OFF ITS POWER LINES. THE TOWN'S FIGHT REACHED A CLIMAX, IT STATES, WHEN THE COUNCIL DECIDED TO DISCONTINUE POWER SERVICES AS A PROTEST, FOLLOWING A COURT DECISION CLEARING THE ACCUSED OF THE CHARGE OF STEALING ELECTRICITY. MAYOR KNIGHT WAS GIVEN TO UNDERSTAND THAT HE AND HIS COUNCIL HAD NO RIGHT TO DEPRIVE RESIDENTS OF THE PRIVILEGE OF A UTILITY BECAUSE OF SUCH A SILEY CASE.

## RICH STRIKE AT BRAURNE

## Important to Entire District

The recent strike at Bralorne Mine, Bridge River district, is confirmed from an authoritative source, and is evidently of major importance, further supporting the growing belief that Bralorne and its neighbor, Pioneer, are the richest gold-mines in Western America, even surpassing in per ton value the Original Sixteen, to One Mine Alleghany, California, which has held premier position for many years in a class by itself.

More than that, the "jewelry" ore found in both properties compares in richness with any found in the California mine, where one block of ground, embracing less than 42 square feet of vein, yielded close to \$1,000,000 in coarse gold some years ago.

It is also understood that a veritable network of veins, striking in different directions, has been encountered in the vicinity on No. 2 fault on the same level and, while only partially explored, shows some remarkable values, with widths up to 20 feet—Mine World.

Less than 2½ years ago Pioneer shares sold less than 50¢ a share; today you cannot purchase them for \$13.00.

The Oregon claims operated by the A.F.D. Bridge River gold mining syndicate, located less than 2 miles due south of Pioneer, are now offering the last purchase of shares at 10¢ per share in units of 500 shares.

No one in the Crows' Nest Pass ever had such an opportunity to make a real investment. Get in touch with Mr. J. Cardinal, sales representative for the A.F.D., and find out all particulars.

A revival of interest in the "Doy-ky" movement is under way. All former members of Fernie Auxiliary or other temples will be called together in the very near future to arrange for a ceremonial in Fernie on Labor Day, if material can be found.

## "Brass Tacks"

A GOOD many years ago, most merchants used to "yard off" a length of cloth by estimating a yard from the tip of their nose to the extremity of an outstretched arm—or by some equally haphazard system.

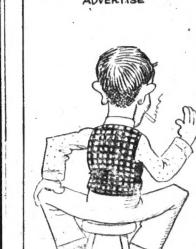

No doubt some customers may have noticed that certain merchants had shorter arms (or longer noses) than others, and felt vaguely that something was wrong but nobody did much about it until one bright merchant hammered two Brass Tacks into his counter, exactly 36 inches apart, and carefully measured his cloth on them ACCURATELY. Soon all merchants followed suit—customers began to get down to brass tacks" in their measuring. That was how the expression started.

EATON'S Catalogue "sets down to brass tacks" in describing its merchandise. There's nothing mysterious—nothing certain—that can be "taken two ways." If an article is well made, we say so; if it isn't we admit it. Also, when you know what you're getting. Accurate illustration and precise information tells exactly the value you'll receive for the money you send—more, of course, it's our aim to make that value the best you can obtain anywhere. But in any case, you KNOW what you're getting. That's what taught you long ago that "It's SAFE to save at EATON'S."

WORLD HAPPENINGS  
BRIEFLY TOLD

David Lloyd George recently completed 44 years' unbroken service as member of the House of Commons for Carnarvon.

Train wreckers derailed the Vienna-Paris-London express between Wels and Linz, capitals of upper Austria, causing two deaths and a score of injuries.

"Amps" throughout the Dominion will mourn the death of Sergeant Richard Wilkinson, 46, past president of the Amputations Association, in the Christie Street Veterans' hospital, Toronto, recently.

No such action has been taken," was Premier R. B. Bennett's reply in the House of Commons to a question if the government contemplated signing an air mail contract with Canadian Airways.

Lights or reflectors on all horse-drawn or other vehicles operating on major or secondary highways are required by a bill to amend the Vehicles and Highway Traffic Act, 1924, which has been introduced in the Alberta legislature.

Royal Canadian Mounted Police officers will be placed in railroad yards shortly to discourage the wanton desert among those foot-loose persons who wish to do their "spring travelling on the 'roads,' " it was learned.

The 10 per cent. income tax imposed on judges, officers of the military, naval and air forces, and of the Royal Canadian Mounted Police, is continued for another year in a bill which received first reading in the House of Commons.

United States exports to Canada for February totalled \$19,601,987 against \$11,560,787 in the same month last year, the United States department of commerce announced. Imports from the Dominion for the month were \$14,163,439, against \$8,530,394 last year.

## Withdraws Offer Of Million

Lady Houston Thinks London Is Neglecting Air Defence

An offer of \$1,000,000 towards the air defence of London has been withdrawn by Lady Houston, wealthy air enthusiast who backed several Schneider cup efforts, with a gesture of rage at Prime Minister Ramsay Macdonald for his "contempt."

"I alone have dared to point out the dire need for air defence of London," she wired the prime minister. "You have muzzled others who have deplored this shameful neglect. London is the only capital in Europe without any air defence. You have treated my patriotic gesture with a contempt such as no other government would have been guilty of towards a patriot."

## Was Once Populated

French Scientists Find Rich Art Treasures On Sahara Desert

Professors Gautier and Reggasey of Algiers University reported they had found indications that a civilization, now lost, once flourished in the Sahara desert. The two French scientists returned from an exploration of the Tessili Des Ajer region 30 miles south of Port Poligiac to say they had dug from the barren sands rich art treasures. These, they said, included rock paintings and carvings with stone age axes and tools.

The London area alone contains over 200,000 registered private automobiles.

W. N. U. 2042

## Gardening

Now Is The Time To Think About The Flower Garden

Along borders and in front of flower beds it is best to have something tiny and one of the very best for this purpose is Alyssum. This grows a few inches high and when once started defies drought, weeds and general neglect. It bears a profusion of tiny white flowers, sweetly scented. When seed pods start to appear the plant can be sheared back an inch or so with clippers or even a lawn mower and in ten days another crop of flowers will start. Like the poppy the seeds are very fine and to insure thin, even planting, it is best to mix with a little dry sand and sow the mixture. Another attractive dwarf flower and just as easily grown is the portulaca. This is a wonderful thing for hot, dry corners. The waxy flowers come in several bright colors. A little larger and also a continuous bloomer is the Calendula or pot Marigold. The plant is bushy and reaches a height of eight to twelve inches. Foliage is dark green and the large flowers are orange and yellow. The California Poppy is a shade smaller. The foliage is greyish green and very fine. Flowers are single, a golden yellow and almost two inches across. Clarkia, Larkspur, and Marigolds are larger plants and also easily grown.

These three require from foot to 18 inches between plants and should be placed about the centre of the flower bed, either in clumps. At the back, or for use as screens one can plant Cosmos and Sunflowers. These are late bloomers coming on in August and September. The garden sunflowers are much more ornamental than their cousins out in the corn field. Then there are Nasturtiums, Pansies and Sweet Peas which are well known. Most of these things are planted just as soon as the soil is fit to work, but any good seed catalogue or the packets themselves contain cultural directions.

As soon as the ground is ready, one may get in the first vegetables and flowers. In the vegetable line, sow these things of which the leaves are eaten. These include Lettuce, Cress, Spinach, Radish, Mustard and Peas. There is little danger from frost when planting them too soon as will stand some frost. Next in line will be those bulbous or root vegetables such as Beets, Onions, Carrots, Early Turnips and Parsnips. At this time the first of the Potatoes are planted and although not as hardy as the others mentioned they are not susceptible to frost until the plants come through the ground which will be from a week to a fortnight after planting, depending upon weather conditions. Repeat planting or practically all the vegetable tables every ten days until about the middle of June so that the harvest time for these will be extended. In the third planting group will come the really tender things, such as Tomato plants, Melons, Cucumbers and Egg Plants which are best kept indoors or unshown until all danger of frost is over. Among the hardiest annual flowers are the Calendula, Candytuft, Alyssum, California Poppy, Cosmos, Callopolis, Larkspur, Poppy, Lirnia, Virginia Stock and Sweet Peas. The latter must be sown as early as possible. After danger from frost has practically disappeared, Zinnia, Nasturtium, Aster, Stocks, Balsam, Snapdragons, Marigold and Gladiolus may be planted. Dahlias and Cannas are a little more tender and should not go in until all danger of frost is over.

Gardeners will find the current seed catalogue indispensable. The height of the flowers, times of blooming, whether they are suitable for such special purposes as edging, screening, cutting and fragrance are all mentioned and are indispensable facts in laying out a satisfactory garden. In the vegetable line the catalogue continues this useful service by listing different varieties under the heading of Early, Late and Medium so that one can have a succession of vegetables right through.

## Little Journeys In Science

## SUGAR FROM WOOD

(By Gordon H. Guest, M.A.)

Science has recently amazed the world by making chocolates from ordinary kitchen wood. This feat was accomplished by a famous German chemist, Professor Friedrich Bergius, after ten years of experimentation in his laboratory. This chemist has perfected a process for making sugar from ordinary lumber and he claims that this wood sugar is sweeter and healthier than ordinary cane sugar. He also maintains that in countries where wood can be obtained in large quantities, such as the Baltic States, Rumania, Northwest United States and Canada, wood sugar can be produced more cheaply than cane sugar is produced in the countries located in the torrid zone.

A small factory has been constructed in Germany which manufactures 6,000 to 8,000 tons of pure sugar per year from wood. Finely ground and dried wood is treated with mineral acid until it is reduced to a pulp. This pulp of molasses is then boiled to drive off the acid and a further step in the process changes it into wood sugar. The sugar obtained at this stage can be used as cast sugar, the molasses as a fodder for animals, for making yeast, for the production of alcohol and for other purposes. Another step causes the wood sugar to chemically purify grain sugar which is used in the candy industry, replacing cane or beet sugar.

This sugar derived from wood is considerably harder than cane sugar because it consists only of glucose which commonly called grape sugar. Glucose is absorbed by the human body at once, whereas cane sugar must be converted into glucose before it can be absorbed.

There is less strain on the body in using glucose rather than cane sugar.

Glycerine, acetic acid and pure medicinal alcohol are also being produced from wood dust which is a kind of saw dust has been introduced in Germany for use in barns. This saw dust is a by-product in the making of wood sugar.

## Recipes For This Week

(By Betty Barclay)

## CHEESE BISCUITS

2 cups sifted flour

2 teaspoons double action baking powder

1/2 teaspoon salt

2 tablespoons butter or other shortening

1 cup grated American cheese

1/2 cup milk

Sift flour once, measure, add baking powder and salt, and sift again. Cut in shortening and cheese. Add milk all at once and stir carefully until all flour is dampened. Then stir vigorously until mixture forms a soft dough and follows spoon around bowl. Turn out immediately on slightly floured board and knead 30 seconds. Roll 1/2 inch thick and cut with 1 1/4 inch floured biscuit cutter. Bake on ungreased baking sheet in hot oven (450 degrees F.) 12 or 15 minutes. Makes two dozen small biscuits.

## HODGEPODGE PUDDING

1 cup orange pulp, diced

1/2 cup apples cut fine

1/2 cup broken walnut meats

1/2 cup seeded raisins, chopped

1/2 cup orange juice

1/4 teaspoon ground cinnamon

1/4 cup sugar

6 tablespoons bread crumbs

1 teaspoon butter

Mix all ingredients except butter.

Put into buttered baking dish, dot top with bits of butter and bake covered in a moderate oven (380 degrees F.) until apples are tender. If apples are very dry, increase the amount of orange juice slightly. This is a pudding boys like.

## Boy Runs Own Gold Mine

Seventeen-year-old Michael MacDonald has managed his gold mine in Rhodesia so well that he will enlarge it. He employs a dozen natives and is getting nine pounds weight of gold from a ton of ore. He is adding a battery of stamps to work his ore on the spot.

## OCCASIONAL WIFE

By EDNA ROBB WEBSTER  
Author of "Jewels," "Lipstick  
Girl" Etc.

### SYNOPIST

Camilla Hoyt and Peter Amon, a young girl and a young man, decide to live their own lives apart until Peter is able to provide for her. Peter is a young, struggling sculptor, and Camilla a young girl, the scholarship student, and Camilla is the adopted daughter of a wealthy family. She is not to inherit money when she reaches age 21, so she is studying commercial art in the hope of landing an agency job. Others in the story are Avis Werth, another wealthy girl who is trying to win Peter; Sylvia, Peter's mother; and Gus Matson, his former roommate with whom he has quarreled. As a party to an exclusive club Peter and Amon's Camilla goes with impersonations. When the rest of the members of the party go to a cabaret to continue the gaiety, Peter and Amon go to the beach by themselves and fall asleep on the sand. When they awake it is early morning and Avis and another boy are there. Peter's mother makes it necessary for Camilla to announce before the party that she and Peter are married. Bowman and Werth are advertising agents who Camilla uses to sell some of her work, send for her and offer her a salary of \$50.00 a week to start and a prospect of having it doubled. She tells Peter of her financial fortune in securing employment. Mrs. Hoyt is also informed that Camilla has obtained work and is going to leave Peter. Hoyt, however, and Werth rents a studio on the same floor as Peter, and invites him to have lunch there. He accepts reluctantly, and when he arrives he is met with his visit. Camilla urges Peter to accept some of her earnings to help him along, but Peter refuses and they quarrel.

(Now Go On With The Story)

### CHAPTER XXXIX.

Peter dismissed Avis' suggestion that she "invest money in his future" with, "I couldn't do that. It's awfully sporting of you to offer and I appreciate your confidence in me, but it wouldn't be fair to borrow money from you just because you're a good friend."

"You won't consider a loan from a stranger, I know, but take this risk."

"I might. I know that I could pay back sometime, whether I make it at sculpturing or not. I certainly don't expect to be broke for always."

"Then let me back you for a trial. I'd love to be interested in your progress and see you win out." She did not plead or attempt to influence him with a personal appeal. Only her words were persuasive.

After a short silence, he asked

abruptly, "Why are you interested in me?"

Her head was thrown back against a cushion and she looked at him from beneath lowered eyelids. Her lips curved slightly with amusement. "Because I like you," Avis admitted. "And, as I said, because I believe in your ability, and have money to invest in a good thing when I see it. Need any more reasons?"

"Is that all of them?" soberly.

"All I can think of at this moment." She laughed and tossed a cushion at his head. "You're a funny old thing. Anyway, it's all settled. How much?" She got up and went to her desk, took out a pen and check book.

"Oh, don't give it to me, now. I want it done up regular, with legal papers, witnesses and all the red tape. You haven't named the interest, even. How do you know won't charge more than the legal rate?"

He attempted to jest, but his confused thoughts were like weights in his brain.

"Is six per cent. fair enough?"

"Okay. Compounded every three months, payable—when?"

"When you have it to spare. So long as you pay the interest, it makes no difference to me how long you have it... It will be a relief to have that much more invested safely."

"Besides, as I told you the other day, I want to do some work for you when you get time. I really am serious about that, and I'm sure that mother can use some new garden pieces, also."

"Why should I do them? There are many who are better known than I."

"You are impossible, Peter Amon. Won't even grant us the honor of having some of the first pieces done by the future famous Peter Amon? Someone has to start you, surely. And when our friends see what you have done for us, their orders will just naturally follow. One client always leads to another, for a clever workman."

"You are most encouraging," he admitted. And in a kinder tone, "I do appreciate your interest, Avis, and you can understand that I can't impose upon you."

"Anything for which I might do for you is no sacrifice for me, you know that. And this loan is only an advance payment on my future account. It gives me no inconvenience and helps you a little for the present."

"A little! It means everything to me!" he declared. Relief and hope and gratitude were in his voice.

"I hope it will bring everything to

you." Avis echoed gently. She began to write the check in her large angular scrawl.

"Wait a minute," Peter interrupted her. "If you won't wait for witnesses for this transaction, I'll make out some sort of temporary legal form for a substitute. Or have you some promissory note blanks?"

"You must think I write checks regularly for loans," she laughed. "Of course, I haven't. But why be silly about all that? If you have your signature on my canceled check, that's enough for me."

"Not much. I appreciate your confidence in me, but supposing I died suddenly..."

She smiled. "In that case, I just couldn't collect, I guess."

"That's right," with sudden concern. "Well, you see? I'm not even a good risk."

"You are more absurd every minute. If you try hard enough, I suppose you could think of a hundred reasons why I shouldn't let you have the money. But why not be sensible, both of us a racing chance, and you win out? If you don't stop this worrying over trifles and hurting your work for the sake of a little money, you will get nowhere."

As for seeing Paris, it will be as unattainable as the moon." He got up and went to his desk, took out a pen and check book.

"Oh, don't give it to me, now. I want it done up regular, with legal papers, witnesses and all the red tape. You haven't named the interest, even. How do you know won't charge more than the legal rate?"

He attempted to jest, but his confused thoughts were like weights in his brain.

"Is six per cent. fair enough?"

"Okay. Compounded every three months, payable—when?"

Eat, talk, sing and shout and never feel embarrassed. Your false teeth stay all day long. The secret is in Dr. Werth's Powder—they fit snugly—comfortably—they can't slip. Prescribed by world's leading dentists—today it's the best. Costs but little—any druggist.

Hans Christian Andersen

Son of Poor Shoemaker Became A Writer With World-Wide Fame

Denmark recently celebrated the birthday of a poor shoemaker's son who lived to become one of the nation's most famous literary figures. He was Hans Christian Andersen, whose fairy tales are known among children and adults in almost all civilized countries.

Andersen, backward and considered stupid in his youth, was born at Odense in Funen province, April 2, 1805. His parents had so little money the entire family lived in one room.

Andersen always scored his biggest success with fantasy, but had ambitions to write romance and did, in fact, achieve some notice as a novelist and a poet.

Fairy tales earned him fame all over Europe. He was accorded a great welcome when he went to England in 1847. When he left Charles Dickens bade him farewell at Ramsgate pier.

In 1875 Andersen fell out of bed severely hurt. He was never well from that time on, and in 1875 he died at his home near Copenhagen.

### Requires No Aerodrome

Toronto Inventor Described Bell-Phone To Reporters At Plymouth

John Howard, of Toronto, arrived at Plymouth, England, and described to reporters the invention with which he and Dr. H. P. Holter, of Maryland, hope to revolutionize aerial navigation.

"It's a simple idea," he declared, "is a machine which can land directly and smoothly on land or sea. There's no need for an aerodrome, nor for a mooring mast. It combines the principles of the dirigible with those of the autogiro."

The new invention would make it possible, Howard added, to go from England to Australia without a single stop or the possibility of a single accident.

Bellaphones would be 106 feet long, could carry 25 passengers, and have a speed of from 100 miles an hour upwards.

The accident risk would be eliminated in the fact the bellaphone would have an autogiro-like propeller. If the helium bag should burst, folding wings attached to the structure could be let out.

## THE RHYMING OPTIMIST

By Aline Michaelis

### THE WILD BIRD

#### Question:

The singing bird, the joyous bird, How could you let it go?

The bird with three green reds, Its clear song used to fill my ears.

Ab, can it be you did not love

Its happy, woodland song,

That toll of wind and tree and sky

The whole day long?

#### Answer:

I loved it well, the bird whose notes

Were clear as mountain streams;

I loved me in enchanted lands;

I brought me back lost dreams;

But ever in its cadences

I caught a wistful strain,

A hint of longing woven through

The air, I loved it well,

I loved it so, I could not bear

Its' poignant melody,

And set the doorajar free.

Individual microphones for each person sharing in a business conference have been invented to record his words on a small wire.

Bought in Chippington, England, three years ago, a pigeon has just returned to its old cage.

### Canada Grain Act

Plan To Give Special Grading For  
Garnet Wheat

A bill to amend the Canada Grain Act, brought into the House of Commons by Hon. H. H. Stevens, minister of trade and commerce, would give the government authority to order special grading of Garnet wheat. This has been a contentious subject in parliament for several sessions.

Under the present regulations governing wheat grading, Garnet cannot be put into number one hard or number one Northern grades, but is admitted into number two Northern and all grades below that.

The amendment now proposes that only wheat of the milling quality equal to Marquis shall be graded as number one or number two Northern. This would exclude Garnet but admit Reward, another early ripening wheat.

The change would not be brought into effect until proclaimed by the government. Provision is made that the Western standard committee could provide separate grades for any varieties such as Garnet above number three Northern.

In the past a considerable proportion of Garnet has been graded number two. There had been a great deal of controversy as to whether it included the varieties of wheat which were injuring the standing of Canadian wheat in world markets since flour of this type is somewhat different as to color and baking qualities compared with Marquis or Reward. Supporters of Garnet have insisted that it makes as good bread as Marquis.

Garnet is an earlier ripening wheat than Marquis and it is contended it has proven itself more prolific than Reward, which possesses the early ripening qualities of Garnet and the high milling qualities of Marquis. As many sections of prairies must use the early ripening varieties, efforts have been made to develop Reward to a point where it will produce as well as Garnet and yet retain its early ripening and its milling qualities.

A new wheat developed by crossing Reward and Garnet has been brought up to the sixth generation but is not yet ready to be turned over to the farmers as a substitute for Garnet.

Other amendments to the Grain Act would make technical changes in the regulations to facilitate movement through such eastern ports as Montreal.

### Relates Grim Story

Diary of Norwegian Found By Soviet Expedition In Arctic

An Arctic diary has been found relating a grim story of the Arctic by its discoverer on Cape Chelyuskin by a Soviet expedition which has just returned to Leningrad. The diary was written by Peter Tessen, a Norwegian, who was a member of Amundsen's expedition to the Arctic in 1919 on the ship Maude. Tessen was lost in 1919, but the diary contains valuable information in the form of messages intended for Amundsen concerning a sleigh expedition to the Alesund Islands and Cape Chelyuskin. The notes, which also contain the results of extensive meteorological observations, are stated to be in an excellent state of preservation, although written with an ordinary lead pencil.

### No Doubt Worthy

Hats off to Amarillo, Texas, where they set aside a day in honour of mothers-in-law, where the town parades for them, bands serenade them and the mayor extols them in a formal decree. Sweet peans are their symbol, and sons-in-law dig down so handsomely for bouquets that Amarillo florists can't meet the demand.—Brooklyn Eagle.

### Must Join Forces

The physicist, chemist and biologist must join forces with the historian, the sociologist and the economist in seeking the solution of man's problems, Dr. R. C. Wallace, president of the University of Alberta and a member of the National Research Council of Canada, said in an address at Ottawa.

"Now," said the college man to his dad at the football game, "you will see more excitement for \$2 than you ever saw before."

"I don't know," replied the old gent; "that's what my marriage license cost me."

One medical authority says that the growth of children takes place entirely when they are asleep.

Railway carloadings in France last year totalled 16,523,029.

The heaviest precipitation recorded on the South Alberta prairies for the year 1933 was at Chedderville, 26.12; and the lowest at Sunnynook, 6.99.

Bill Knight advises that it takes two to make a bootlegger. Yes, but it's the bootlegger who does the soaking and rightfully has to pay the penalty.

Even Murphy had to admit that the action of the mayor and council in threatening to cut off light service was "crazy." Of course, there are lots of other acts perpetrated around here people and were given a wonderful time during their stay there.

Even the town lights refused to go red.

A wedding of very great importance locally is likely to be solemnized here next week.

Harvey Murphy and James Sloan addressed a workers' meeting at Natal on Monday night.

Twenty-two years ago last Saturday the great ship Titanic went down with 1517 persons.

S. Gilfoyle and Dan Lucy, of the Calgary Brewing Co., were in town today.

Communist would-be orators are now referred to as "wind artists." Yes, and it's such an ill wind that can blow nobody any good.

On his arrival at Grande Prairie last week, His Honor Judge J. D. Matheson was accorded an official welcome by the Peace River Bar Association.

The Y.P. Questionmarks and the Columbus Club Cyclone basketball team journeyed to Kimberley on Saturday last where they played the Kimberley Pirates, losing both games, 31-19 and 34-32 respectively.

The boys and girls were treated

very courteously by the Kimberley Motors of other acts perpetrated around here people and were given a wonderful time during their stay there.

## Local and General Items

The Editor will be pleased to receive items for this section, regarding visitors entertained, parties leaving for holidays or short trips, bridge parties, teas, etc. Phone items in to 11 or hand them in at The Enterprise office no later than Wednesday evenings.

Thomas Beck has been elected president of the Fernie Rotary Club.

Rev. W. T. Young has resigned the pastorate of Trinity United church at Calgary.

D. M. Horning, of Arrowwood, will apply for a beer license for the new hotel at Cowley.

Mr. and Mrs. Gordon Steeves and little daughter have been visiting in Blairmore for a few days.

A man at Strathmore captured a jet black gopher. Gophers around Blairmore, animal-like, are turning red.

A son arrived to Mr. and Mrs. A. (Gusty) Vangotsinoven on Sunday, April the 8th. All three are doing well.

Report says that Constable Bill Bailey, R.C.M.P., is shortly to be transferred from Taber to Bow Island, following but a very brief illness.

Hugh Stewart, well known Calgary traveller, died at Calgary on Monday, following but a very brief illness.

F. J. Braun, district supervisor of Safeway stores, Calgary, accompanied by Mrs. Braun, is a visitor to The Pass today.

We are displacing labor so rapidly that soon the last man will only have to press a button to get his own funeral.

The C.N.R. had to put ten extra locomotives into service in Nova Scotia to handle rush business. This is an encouraging sign of the times.

Miss A. Yuill, of the Coleman teaching staff, was bereaved recently by the death of her sister, night superintendent at the Toronto general hospital.

Nature Note—A skull a half an inch thick was found in one of our western states and immediately sent to Washington without the formality of an election.

They were enroute to Natal to deliver a car sold by Badling Motors, of Lethbridge.

The seating capacity of the United church was taxed to such an extent on Sunday night last that upwards of forty persons were unable to gain admittance. Rev. W. T. Young was the preacher, and dealt with the programme and principles of the Oxford movement.

The election of officers of the Bellevue Miners' association took place recently. The following are the officers for the coming term: President, I. Dambois; vice-president, Joe Dowson; secretary-treasurer, A. Rhodes; audit committee, Wm. Brown and Thomas Clayton; committee, N. Spooner, Frank Owen, John Kubbah, John Laughran and T. J. Allsopp. A large vote was cast and much interest was taken in the election.

Capt. Ross Mason, young skipper of the rum-runner Kromhout, which evaded the authorities off Nova Scotia and gave them a chase to St. Pierre, has been sentenced to serve three years in the pen on the charge of taking seized rum-runner from the coastguard last December. He was charged formally with stealing his ship, stealing its cargo, and obstructing law officers. No charge for theft of light or cockroaches was laid, although both these important items went with the ship.

The final night of Dr. Ogden's mission here drew a large crowd to the United church on Friday evening. The doctor's subject for the evening was Sigismund Goetz's great preaching picture, "Despised and Rejected." Many searching lessons were drawn from the picture and a most impressive discourse was delivered. Dr. Ogden completes a six-night mission at the Bellevue United church tomorrow, and on Sunday will open a similar mission at Hillcrest, at the completion of which he will fill a three-month's engagement in one of the largest churches in the city of Edmonton.

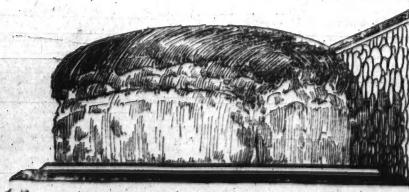

So are foods. Some irritate and inflame the digestive tract. Others bring peace, harmony, contentment.

**MOTHER'S BREAD**  
 is the great tranquilizer. It soothes and nourishes. Why? Because it is nature's complete ration, representing all food and no waste. Build your meals upon it.
